

Child Education and Special Education

Vision:

Education and Vocational skills training for children of villages all over India!

Mission:

To provide facilities for children for education and vocational skills.

1 year Goal:

Three centers and three village schools currently active, To spread it to 12 villages.

Benefits:

In Rural Area many schools, there are not enough trained and skilled teachers to teach students. This results in higher dropout percentage of children till 10th standard. This also results in uneducated youths which leads to unemployment.

For this purpose, RSVK has started SSY Ananda Kendras in villages where young children are taught Computers, Music, Mathematics, English and Pottery by skilled trainers. The direct impact of this is children who were lagging in studies are now provide with opportunity to discuss their problem with skilled trainers and get it resolved easily. This helped them to increase their confidence, self-esteem and liking for studies.
